Marine Oiler, Auxiliary Position Available

WaterBridge Ferries – Arrow Lakes Ferry Division

At WaterBridge, we believe that people are the core of our business. We are proud to offer our employees a positive work environment, competitive salaries, and excellent benefits. When you are a member of the WaterBridge team, you enjoy a stable career where your ideas are encouraged and skills valued. We are proud to say that we promote from within and have internal programs and educational opportunities to assist you in your career aspirations. We offer a worksite in one of the prettiest areas in the country to live and work. If you are an avid outdoor person you can ski, sled, bike and hike in some of the best natural areas in British Columbia.

Who we are:

WaterBridge Group is a privately-owned ship building and ferry operator company based in British Columbia, Canada. The team specializes in building vessels in remote sites, under difficult environmental conditions and with limited access to industrial infrastructure. We are also responsible for the safe ferry passage of people in the communities of Arrow Lakes and Burns Lake, BC. Our ferry crews are Transport Canada trained and certified. We are a dedicated team working in a fast-paced environment with a focus on customer service and quality workmanship. We pride ourselves on the impact we make to the local economies we build and operate in.

Who you are:

You are a confident Oiler who prides him/herself on ensuring the vessel is performing at its best. Nothing makes you happier than hearing the engines hearty rumble upon demand. You have great pride in your work and know that what happens below deck impacts the crew and passengers above. Your years of experience tinkering with machinery were a prelude to being known as the “man/woman who can fix and maintain anything”.

Marine Oiler, Auxiliary

Under the direction of the Engineer, the Oiler is responsible for the safe and efficient operation of vessel machinery in the engine room as required under Transport Canada Marine Regulations.

We offer a flexible schedule with limited term accommodation available. This position is offered as an Auxiliary position and is considered “as and when required” and call-outs require the ability to report for duty with short notice. This position resides on Upper Arrow Lake, Shelter Bay, in the interior of British Columbia, Canada and is best suited for those who currently live in or are in the process of relocating to the area. Travel to the point of assembly and meals are at your own expense.

Key Accountabilities:

- Assists the Engineer in the service, maintenance, repairs, and operation of the ship's machinery by carrying out planned maintenance routines such as lube, fuel, and oil filter changes, base inspections, waste systems and setting valve gear clearances, etc.
- Is proficient in starting and shutting down main engines and auxiliary machinery
- Maintains inventory of spare parts

- Completes and maintains applicable logs, records, and reports
- Maintains and repairs deck machinery, deck pumps, and hydraulic equipment
- Participates in and operates all equipment associated with fire, lifeboat/life raft, and emergency drills
- Changes over electrical power from ship to shore and shore to ship
- Checks and maintains in good operational condition all personal protective gear
- Assists in terminal facilities, maintenance, operations and repairs, as required
- Assists on deck, as required, subject to vessels operations.
- Meets and interacts with the public in a diplomatic and courteous manner
- May perform Night Watchman duties including refueling
- Maintains good ships' husbandry throughout the engine room
- Painting and maintaining overall vessel appearance
- Performs other related duties

Qualifications/Skills/Experience:

- Preferred candidates possess a current Marine Emergency Duties STCW Basic Safety (formerly A1/B2) training or better
- Must provide a valid Marine Medical Certificate
- Must hold a valid BC Driver's License – Class 5
- Minimum Grade 12 completion required
- Working knowledge of internal combustion engines and related machinery
- Experience in a machine shop or garage assisting with repairs and maintenance of various engines an asset
- Working knowledge of marine vessels and ferry systems an asset
- Ability to interact effectively and courteously with others
- This position can be physically demanding
- Is a team player with an approachable demeanor
- Good written and oral communication skills a must
- Demonstrates ability to respond to emergency situations calmly, effectively and efficiently
- Comfortable working in enclosed spaces
